

# SELF-SERVE UNATTENDED KIOSK

## PREMIUM ALL-IN-ONE SMART KIOSK

Welcome to the next generation of unattended experiences. The AMP kiosk redefines self-service ordering, payment, self cashier, check-in, and donations. The kiosk is designed with easily adjustable free standing or wall-mounting options combined with a small footprint, tidy cable management, and an easy to clean enclosure. The entire system runs on a secure Android OS for a seamless user experience and simple app development. The integrated AMP 6500 weatherproof smart terminal is built to last, with IP65 waterproofing and IK08 vandal resistance while accepting any payment from EMV chip & PIN to QR codes securely.

### UNIFIED SOLUTION

- sleek, low-profile case design
- fully enclosed integrated peripherals
- seamless Android experience

### SECURE PAYMENTS

- PCI 5.X certified device
- EMV level I & II contact & contactless chip & PIN, tap, swipe, dip, QR pay

### PRINTER

- high speed thermal
- 80 mm roll size
- secure access
- autocutter

### FLEXIBLE DESIGN

- standing or wall mounted options
- customizable launcher app
- optional printer sizes
- Android OS for easy development
